## About GR Engineering

- ◆ Australian based process design and construction contractor servicing the international mineral processing industry
- ◆ Integrated service capability – involvement at all stages of project and asset lifecycle
- ◆ Experience across a range of precious, base metals, industrial and bulk commodities
- ◆ Over 500 employees across Australia/USA
- ◆ Local presence, international focus
- ◆ Core values:
  - Provision of a safe and healthy working environment
  - Our clients are our focus
  - Commitment to innovation and quality
  - Our people are our most significant assets
- ◆ Listed on ASX (GNG:ASX)
- ◆ GR Engineering subsidiary companies:
  - GR Production Services
  - GR Engineering Services Inc. (USA)
  - Mipac
  - Paradigm Engineers

## Our Services

## Health, Safety and Environment

- ◆ Strong occupational health and safety record since inception
  - Established systems for the identification, management and mitigation of risks
  - Targeting continuous performance improvement
- ◆ Success achieved through visible and stable leadership, the application of resources, processes, continuous education and a demonstrated commitment to our policies
- ◆ Committed to the protection of the natural environment, the prevention of pollution and to playing a constructive role in communities
- ◆ Our employees take personal ownership of safety
- ◆ OH&S systems aligned to ISO 45001

## GR Management System

- ◆ The GR Engineering Management System has been developed over a number of years to facilitate successful project delivery
- ◆ Emphasis on producing accurate and timely deliverables, project reporting, forecasting, administration and accounting
- ◆ Deployed across all facets of GR Engineering's business – process and engineering design, project management, project controls, costing, scheduling, procurement and expediting through to commercial and financial administration
