

GR ENGINEERING SERVICES
ENGINEERING CONSULTANTS AND CONTRACTORS

ASX RELEASE

3 April 2020

For immediate release to the market

**Contract Award - Upstream Production Solutions
Arrowsmith Stabilisation Plant and Cliff Head Alpha Offshore Platform Facility**

GR Engineering Services Limited (ASX:GNG) (**GR Engineering**) is pleased to announce that its wholly owned oil and gas services business, Upstream Production Solutions Pty Ltd (**Upstream PS**) has entered into a three-year contract with Triangle Energy (Operations) Pty Ltd (**Triangle Energy**) for the provision of operations and maintenance services to the Arrowsmith Stabilisation Plant (**ASP**) and Cliff Head Alpha Offshore Platform (**Cliff Head**) in the Perth Basin, Western Australia (**Contract**).

Upstream PS has been providing operations, maintenance, projects and advisory services to the ASP and Cliff Head facilities since they were commissioned in 2006 and this Contract secures its continued involvement in the project.

Commenting on the contract, GR Engineering's Managing Director, Mr Geoff Jones, said:

"Upstream PS continues to perform well in challenging market conditions and we are excited that we have been given the opportunity to continue to support Triangle Energy."

Ends.

About Upstream Production Solutions

Upstream Production Solutions is an industry leading, client focussed and rapidly growing business with an extensive track record in the provision of operations, maintenance, projects and advisory services to the oil and gas industry. Upstream Production Solutions has a strong reputation for providing safe, innovative and sustainable solutions to production challenges.

About GR Engineering

GR Engineering Services Limited (ASX:GNG) is an ASX listed engineering and consulting contractor specialising in fixed price engineering design and construction services to the resources and mineral processing industry.

GR Engineering has successfully completed the engineering design and construction of projects for a diverse range of clients, including global mining houses, mid-tier miners and junior developers undertaking their first project. Traditionally an EPC contractor, GRES also has the ability to contract through a variety of models, including EPCM and hybrid contracting arrangements.

GR Engineering also has a long history of providing a diverse range of process engineering consulting services, including feasibility study preparation and management, process design and peer review engagements. These services have been delivered for projects globally and play a key role in delivering organic growth opportunities through design and construction project execution.
